

I. Introduction

Carol Smathers
The Ohio State University
163A Campbell Hall, 1787 Neil Avenue
Columbus, Ohio, 43210
Phone: 614.688.1801

Biographical Narrative

Since April 2013, Associate Professor Smathers has held a 12-month faculty appointment as Field Specialist in Youth Nutrition and Wellness. This position, within the Department of Extension within the College of Food, Agriculture and Environmental Sciences at The Ohio State University, provides overall leadership for developing and implementing a balanced teaching and applied research agenda related to youth nutrition and wellness. She was granted tenure in 2019.

POSITION DESCRIPTION

Working collaboratively with a multi-disciplinary team of professionals within OSU Extension and across-campus with other departments and colleges, Associate Professor Smathers functions as an educator with clientele to address statewide food, nutrition, and wellness issues for youth and related issues as expertise is needed; provides unbiased research-based alternatives; evaluates and responds to large scale statewide needs and individual requests; and secures resources (grants and contracts) to focus on these issues. Her responsibilities involve planning, teaching, and evaluating programs, including conducting applied research; translating and integrating research findings into curriculum and educational programs; meeting faculty expectations for creative and scholarly contributions; and providing service to the profession and university in the areas of food, nutrition, and wellness, with a specific focus on issues impacting youth. Meeting these responsibilities involves employing innovative educational methods and technologies to expand delivery of programs and resources to advance Farm to School and other youth nutrition initiatives. Associate Professor Smathers works collaboratively with academic departmental faculty in all Extension program areas on research and engagement agendas. She serves as an educational advisor and liaison for Ohio State University Extension and the University to federal, state and local agencies and educational institutions.

PROGRAMMATIC THEMES

COMMUNITY-BASED YOUTH NUTRITION AND WELLNESS - Focus on community-based participatory research (CBPR), coalition development and implementation of community health strategies, community partnerships, public health, socio-ecological models, policy and environment change strategies, and community nutrition education. (35%)

Associate Professor Smathers directs the Ohio site of a multi-state project that entails assessing Extension's involvement with community coalitions, testing the effectiveness of a coalition coaching model, developing resources and providing training to support coalition development and coalitions' use of community-level interventions. As research project manager for the Prevention Research Center in the OSU College of Public Health, Associate Professor Smathers coordinated community partnerships, data collection, and the dissemination and publication of research results. She serves as co-chair and steering committee member for an obesity prevention coalition comprised of nearly 40 organizations. She is working with this coalition, as well as numerous state- and community-level agencies to foster and to evaluate interdisciplinary problem-solving and organizational policy and environment change strategies that provide healthier nutrition and physical activity options for children, adolescents, and young adults.

ADOLESCENT NUTRITION ISSUES- Focus on nutrition trends, adolescent development, youth advocacy, youth leadership, and community partnerships addressing adolescent health. (25%)

Associate Professor Smathers works with the Ohio 4-H Healthy Living Design Team to meet the national 4-H healthy living mission mandate, including co-leading the creation and implementation of the 4-H Healthy Living Advocate Program. As co-chair of the national Extension Committee on Policy's Positive Youth Development for Health Action Team, co-chair of the National Health Outreach Conference program committee, and active member of the Ohio Adolescent Health Partnership, Associate Professor Smathers influences efforts to improve youth nutrition and wellness at the state and national level.

FOODS IN SCHOOLS - Focus on Farm to School, local foods, procurement, school food service, school meal guidelines and regulations, classroom food and nutrition education, and school gardens. (40%)

As State Lead for Ohio Farm to School, Associate Professor Smathers oversees the provision of information and resources to promote procuring, serving, and educating about local foods to create sustained, improved nutrition behaviors at schools. She collaborates with and serves as a resource to the National Farm to School Network and the USDA Farm to School Program. She facilitates a statewide advisory group and oversees state-level distribution of information through conferences, workshops, toolkits, websites, newsletters, and social media. She oversees program staff and responds to frequent Farm to School inquiries.

5) Curriculum Development

In May 2020, funding began for the USDA NIFA-funded "Growing Teachers throughout the Seasons" (GTS) curriculum development project, for which I am the Principal Investigator. Throughout 2021, I led weekly project meetings to advance development of content for the 18 modules. We continued to develop demonstration plots used for curriculum development and implementation at Franklin County Extension and community sites. Focus groups held in Fall 2021 and February 2022 yielded very useful feedback from educators. An assistant editor was hired to coordinate the design of GTS materials and work with OSU Publications. An initial draft of GTS is being tested by 46 teachers enrolled in our IRB-approved pilot. Curriculum development activities and research findings have been presented at 1 local-level training, 3 state-level conferences, 2 national-level conferences, and 1 international conference.

Additionally, I submitted revisions to the "Tracking Your Health" project book to the 4-H Healthy Living Design Team (2022 Performance Goal).

6) Brief Description of your approach to and goals in teaching, major accomplishments, plans for in teaching

None

7) Evaluation of Teaching

None

8) Awards and Formal Recognition for Teaching

- 2022 - Team Teaching, Multidisciplinary – All Extension Members, 1st place, Ohio Joint Council of Extension Professionals (JCEP), Ohio State University
- 2020 - University Initiative for Teaching and Learning, Components 1 & 2, University Initiative for Teaching and Learning, Ohio State University
- 2019. Team Teaching Award, Extension and Non-Extension Collaborators, Honorable Mention, Joint Council of Extension Professionals, Ohio State University
- 2016 - Present. Multidisciplinary Team Teaching Award - 2nd Place, Presented to the Ohio 4-H Healthy Living Advocate Program (Smathers and Ferrari), Joint Council of Extension Professionals (JCEP)
- 2015 Team Teaching Award - 3rd Place, presented to Camp Public Health-OSU Day, Epsilon Sigma Phi, Joint Council of Extension Professionals (JCEP)
- 2015 Team Teaching Award; Multi-disciplinary All Extension Members (3 team members) – 1st Place, presented for Water First for Thirst, Epsilon Sigma Phi, Joint Council of Extension Professionals (JCEP)

9) Other Academic Advising

None

10) Teaching Professional Development

1. Fundamentals of Racial Justice Facilitation (12 hours), Interaction Institute for Social Change.
<https://interactioninstitute.org/training/fundamentals-of-facilitation-for-racial-justice-work/>
2. 2022 Other Professional Development and training webinars:
 - OSU Anti-Racism Book Club: “Stamped from the Beginning”
 - Inclusive and Equitable Hiring Practices training (Leo Taylor)
 - Implicit Bias training - Kirwin Institute
 - Food for Freedom: A Black History Month Experience
 - Making Sense of the Census: Census 2020 - A Decade of Incredible Growth and Change in Central Ohio
3. Jul 2021, Healthy and Equitable Communities (4 hours on 4 days; 16 hours total) (Endorsement: None), Ohio Department of Health
4. Jan 2021, National Day of Racial Healing; Discussion of film "13th" (Endorsement: None), CFAES Office of Diversity, Equity, and Inclusion IMPACT: CFAES colleagues engaged around the topic of racial healing in a variety of ways starting with a facilitated discussion. In 13th, filmmaker Ava DuVernay addresses the history of racial inequality in the United States, focusing on the fact that the nation’s prisons are disproportionately filled with African Americans.
5. Jun 2020, The Role of the Land-Grant University in Addressing Racial Tensions, OSU Extension Office of Diversity and Inclusion
6. Dec 2020, Ohio Ethics Law (Endorsement: None), Office of University Compliance and Integrity
7. Nov 2020, Workday Trainings (various topics, including Manager and Principal Investigator, November - December) (Endorsement: None), Enterprise Project
8. May 2020, Self-study on antiracism beginning in May 2020 (Endorsement: None) Read books, viewed videos, and attended discussion groups and rallies to learn more about addressing racism in my work and community.

1. Kidd, B.; Smathers, C. (2015). Putting MyPlate on Your Table: Grains. [Fact Sheet] Retrieved from http://ohioline.osu.edu/ss-fact/pdf/Putting_MyPlate_on_Your_Table-Grains_SS-149-15.pdf

Status: Published, Percent authorship: 35%, Description of effort: Reviewed fact sheet and recommended changes.

2. Kidd, B.; Smathers, C. (2015). Putting MyPlate on Your Table: Protein. [Fact Sheet] Retrieved from http://ohioline.osu.edu/ss-fact/pdf/Putting_MyPlate_on_Your_Table-Protein_SS-153-15.pdf

Status: Published, Percent authorship: 35%, Description of effort: Reviewed fact sheet and recommended changes.

3. Smathers, C.; Lobb, J. (2014). Coalition Building: Introduction to working with coalitions. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-1>

Status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

4. Smathers, C.; Lobb, J. (2014). Coalition Building: Policy, System and Environmental Change. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-2>

Status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

5. Smathers, C.; Lobb, J. (2014). Coalition Building: Coalition Structure. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-4>

Status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

6. Smathers, C.; Lobb, J. (2014). Coalition Building: Common Difficulties Faced by Coalitions. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-15>

Status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

7. Smathers, C.; Lobb, J. (2014). Coalition Building: Community Assessment. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-7>

Status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

8. Smathers, C.; Lobb, J. (2014). Coalition Building: Community Coaching to Increase Capacity and Effectiveness. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-6>

Status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

9. Smathers, C.; Lobb, J. (2014). Coalition Building: Decision Making. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-11>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

10. Smathers, C.; Lobb, J. (2014). Coalition Building: Establishing a New Coalition. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-3>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

11. Smathers, C.; Lobb, J. (2014). Coalition Building: Increasing Effectiveness through Community Mobilization. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-12>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

12. Smathers, C.; Lobb, J. (2014). Coalition Building: Evaluating Coalition Progress and Impacts. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-14>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

13. Smathers, C.; Lobb, J. (2014). Coalition Building: Coalition Leadership. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-5>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

14. Smathers, C.; Lobb, J. (2014). Coalition Building: Communication in Coalitions. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-10>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

15. Smathers, C.; Lobb, J. (2014). Coalition Building: Financial Resources for Coalitions. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-13>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

16. Smathers, C.; Lobb, J. (2014). Coalition Building: Coalition Goal-Setting. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-8>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

17. Smathers, C.; Lobb, J. (2014). Coalition Building: Effective Coalition Meetings. [Fact Sheet] Retrieved from <http://ohioline.osu.edu/factsheet/CDFS-9>

Publication status: Published, Percent authorship: 60%, Description of effort: Conducted review of current literature related to community coalitions, organized outline, developed and revised content.

18. Pirie, P.; Smathers, C. (2014). Parent Survey Results: Expert recommendations and what parents are doing (Research report). [Fact Sheet] Retrieved from <http://cph.osu.edu/prc/research/parent-survey>

Publication status: Published, Percent authorship: 45%, Description of effort: Managed research project data collection, developed report content, suggested format, facilitated input meetings with community advisors and health coalition members.

19. Pirie, P.; Smathers, C. (2014). Survey Results: Community and Household Resources" (Research report for community leaders). [Fact Sheet] Retrieved from <http://cph.osu.edu/prc/research/parent-survey>

Publication status: Published, Percent authorship: 45%, Description of effort: Managed research project data collection, developed report content, suggested format, facilitated input meetings with community advisors and health coalition members.

Start date: 2014-11-1, End date: 2014-11-1, Role: Editor; content reviewer, Description of effort: <http://livesmartohio.osu.edu/2014/11/18/one-more-chance-for-your-introduction-to-ohio-farm-to-school/>
54. Bloir, K.; Gallup, S.; Goard, L.; Hook, L.; Hoyt, J.; Kelly, P. et al. (n.d.). *Ohio 4-H Food and Nutrition Curriculum* [Project poster for professional in-service].
Start date: 2014-10-1, End date: 2014-10-1, Role: Project member, Description of effort: Helped review existing curricula, identify applicable National Health Education standards, identify special topics to be added, and describe the potential impact of these curriculum revisions.

3) Brief Description of the Focus of the Candidate's Research, Scholarly or Creative Work, Major Accomplishments, and Plans for the Future, including Works in Progress

The research interests of Associate Professor Smathers focus on public health approaches to health promotion, and more specifically, to obesity prevention. She uses community-based participatory approaches to assess community needs and test ways to improve nutrition among children and teens. Recognizing that interventions are needed across multiple individual, interpersonal, organizational, policy and system levels to reduce childhood obesity, and using the Social Ecological Model and Diffusion of Innovations Theory as organizing frameworks, she conducts applied research relating to the following:

- Community coalitions (Community-Based Youth Nutrition and Wellness)
- Policy, system, and environment change strategies (Community-Based Youth Nutrition and Wellness)
- Farm to School participation (Foods in Schools)
- Reducing sugar-sweetened beverage consumption among youth (Foods in Schools, Child & Adolescent Health Issues)

She has collaborated with the College of Public Health and community organizations to conduct large-scale survey research looking at environmental barriers and supports to raising healthy preschool-age children. As part of this research team, she has disseminated the findings through multiple venues, including national peer-reviewed conference sessions and poster presentations, community advisory meetings, community coalition presentations, and city leaders' briefings.

As the co-chair of a local childhood obesity prevention coalition, she encouraged the coalition to choose themes and set common objectives for member organizations in 2013 ("Water First for Thirst") and 2014 ("An Hour a Day to Play"). Along with an undergraduate student, she conducted assessments in 2014 and 2015 of organizational policies and practices related to

each of the themes. Results from her assessments have been used to establish baseline data and inform decisions about coalition goals and strategies. She has guided the coalition evaluation strategies each year. Under her co-leadership, members have gained increased awareness of and self-efficacy for implementing PSE change strategies and have implemented policy and practice changes—both small and wide-ranging. In 2016, at least 9 coalition organizations implemented policy changes, such as a water-only guidelines, at least 11 organizations implemented system changes, and 10 organizations implemented environment changes. In 2017, coalition members reported that their organizations collectively developed 181 events/resources to support obesity prevention education, and implemented 49 environment changes, 25 new system changes, and 4 policy changes. A partnership that she was instrumental in developing with the Healthy Children, Healthy Weights program at the local health department was recognized with the 2015 Ohio State University Excellence in Community Partnership Award from the OSU Office of Outreach and Engagement. In 2018, the coalition that she co-chairs was selected to receive the national Priester Culture of Health award. This group was one of only eight coalitions selected nationwide by ChangeLab Solutions to receive advanced policy change technical assistance from their public health lawyers along with funding to advance PSE change strategies further throughout 2018.

As part of a seven-state research project exploring ways to increase the effectiveness of community health coalitions, she took a lead role in developing both print and online learning modules conveying best practices for community-level obesity prevention efforts derived from this project. Through her research on coalition development and coalition coaching, she has also developed materials and assessments to strengthen OSU Extension's capacity to work effectively through coalitions, including 15 fact sheets about coalition development and management and a survey tool for assessing OSU Extension's involvement with coalitions. She has co-presented 8 national-level academic presentations related to this research.

Her future research will focus on coalition development, youth advocacy as a tool for improving health behaviors and promoting healthier environments, implementation of environment change guidelines and policies within organizations, promotion of community readiness to adopt Farm to School activities, adoption of organizational healthy eating guidelines, implementation of healthy eating guidelines at conference facilities, and implementation evaluation related to Farm to School strategies. She is working with teams on a project to increase consumption of nutritious locally grown foods by providing sliced fruit to students and by starting indoor and high-tunnel growing operations to produce leafy greens for school meals.

4) Description of Quality Indicators of Your Research, Scholarly or Creative Work Such as Citations, Publication Outlet Quality Indicators Such as Acceptance Rates, Ranking or Impact Factors of Journal or Publisher

The relevance of the candidate's research and program activities was recognized with 55 peer-reviewed conference presentations being accepted (1 local-, 16 state-, 36 national- and 3 international-level) and 29 opportunities to present findings at invited presentations. Citing their interest in the coalition fact sheets that she co-authored, both the Ohio Department of Health Creating Healthy Communities Program and the Ohio Statewide Prevention Coalition Association invited Associate Professor Smathers to give presentations to groups of coalition leaders and members.

She has published 8 peer-reviewed articles, 4 editor-reviewed articles, and 3 abstracts in journals including: *Journal of Extension* (29.5% acceptance), *Journal of Human Sciences and Extension* (40% acceptance), *FASEB Journal* (Impact Factor=5.498), *The Gerontologist* (Impact factor=3.231), *BioMed Central Public Health* (Impact Factor=3.0), *Translational Behavioral Medicine* (Impact Factor=2.989), *Childhood Obesity* (Impact Factor=1.868), *Maternal Child Health* (Impact Factor=1.788), and the *Journal of Nutrition Education and Behavior* (JNEB) (Impact Factor=0.32). JNEB is widely read by nutrition educators working in Extension and serving disadvantaged audiences.

Curricula, creative works, and teaching materials co-developed by the candidate have been used by others across the state and nationally. The Levels of Community Change game has been featured in national and international presentations (and later requested by attendees of each presentation), and used by 4-H groups, public health coalitions, high school and college instructors, and Supplemental Nutrition Assistance Program Education (SNAP-Ed) leaders to engage participants in applying social ecological concepts to real-world problems. Over 50 game kits have been sold through the Ohio 4-H Resources website. A peer-reviewed article about the game has been published. The online "best practices" learning modules she co-developed for rural health coalitions wanting to address obesity prevention were featured in national presentations, used by professionals in other states, and were posted to the OSU Center for Public Health Practice online learning management system which is widely used by public health professionals. The candidate has contributed to 28 OSU Extension Chow Line (distributed through a statewide media release) articles that help translate research about healthy eating and healthy beverages for general audiences, by suggesting topics, reviewing content for accuracy, and providing additional background information.

Associate Professor Smathers works with and provides leadership to professionals and community members throughout Ohio to identify needs and opportunities, conduct problem solving activities, provide education and technical assistance, build capacity for community mobilization, and evaluate the impact of various activities related to youth nutrition and wellness. The obesity prevention coalition focused on childhood obesity prevention that she was invited to co-chair has gained recognition as a model program through numerous grants and awards.

At the state level, in collaboration with a 4-H youth development specialist, Associate Professor Smathers launched the 4-H Healthy Living Advocate program through which over 100 teen advocates have been trained and engaged in promoting healthier environments. Healthy living events co-led by the teen advocates since 2016 have attracted over 120 participants from throughout Ohio. Additionally, blender bike activities using the curriculum she co-developed have reached over 5,500 individuals since 2016.

The Ohio Farm to School program that she leads was recognized by funding to serve as Ohio's single core partner for the National Farm to School Network, by over \$99,000 in funding for a Farm to School grant that will be the focus of some of the candidate's research, and by strong attendance at the six regional Farm to School workshops presented each year in 2014, 2016, and 2017. Smathers gave leadership to carrying out the program's role as the local host and field trip organizer for the 2018 National Farm to Cafeteria Conference. She spoke to the plenary audience of over 900 participants about Ohio Farm to School accomplishments and the college's commitment to food system transformation. She gives leadership to Farm to School Month promotions and activities, including the annual Great Lakes Great Apple Crunch event, for which over 100,000 Ohioans were registered in 2017. The candidate responds to online and phone inquiries each month from around Ohio, and recently responded to requests for Farm to School technical assistance for individuals from Japan and New Zealand.

In addition to local and state leadership, she was chosen for two national leadership roles related to health promotion in Extension. First, she was nominated by the Ohio State University Extension director and selected by the national Extension Committee on Policy (ECOP) to serve on the ECOP Positive Youth Development for Health Action Team. This team was organized to help develop a vision and strategic plan for promoting adolescent health throughout Extension. Second, she was selected to serve as a co-chair of the Program Committee for Extension's 2016 National Health Outreach Conference, and had a significant role in determining the direction of the conference offerings.

At the individual level, the candidate mentors and instructs students in her areas of expertise. Associate Professor Smathers has served as preceptor for graduate and undergraduate students completing requirements for dietetics, public health, and communications degree programs. She has guided the students in the application of competencies learned in their degree programs to work in the public health field.

5) Research Funding

Research Funding Number of grants funded and total amount: 3 for \$705,743 Number of grants and total amount pending: None Number of grants not funded and total amount: 4 for \$1,268,806 Total other funding acquired (i.e. revenue generation, cost recovery, release time): Release time: \$919,865 (total award amounts for projects on which I served as key personnel; funded .25 FTE of candidate's overall effort April 2013-September 2014, plus .20 FTE of candidate's overall effort September-October 2013), and research contracts: received \$3700 (October 2014-present).

Training Grants Number of grants funded and total amount: 8 for \$66,882 Number of grants and total amount pending: None Number of grants not funded and total amount: 2 for \$55,135 Total other funding acquired (i.e. revenue generation, cost recovery, release time) = \$2450: \$1000 travel stipend to present results from two research projects at the Engaged Scholarship Conference; other travel award \$600, reviewer stipends \$850.

a) Funded Research, including Contracts and Clinical Trials, on Which the Candidate is or has been the Principal Investigator

1. 4/2020 - 9/2023. Growing Teachers throughout the Seasons. U.S. Department of Agriculture. (USD 292,489 Total Award) Research Grant. 6/2019
Grant/Contract Number: 2019-04996_PDAL
PI: Smathers, Carol, Co-I: McDermott, Tim
Goal: Increase the number of K-14 educational professionals trained in food and agricultural sciences. Teachers will gain increased ability and experience decreased barriers to teach STEM-based agricultural production techniques and workforce skills throughout the traditional school year by using the GTS curriculum.
Description: Overall project direction, supervise staff, coordinate research, develop and manage project evaluation.

2. 11/2022 - 6/2023. Farm to Early Care and Education Implementation Grant ("FIG") Year 2. Association of State Public Health Nutritionists (ASPHN). (USD 35,694) Research Grant. 10/2021
PI: Smathers, Carol
3. 11/2021 - 10/2022. Farm to Early Care and Education Implementation Grant ("FIG") Year 2. Association of State Public Health Nutritionists (ASPHN). (USD 66,032) Research Grant. 10/2021
PI: Smathers, Carol
4. 11/2020 - 10/2021. Farm to Early Care and Education Implementation Grant ("FIG") Year 1. Association of State Public Health Nutritionists. (USD 90,900) Research Grant. 10/2020
PI: Smathers, Carol
5. 3/2011 - 3/2017. Mobilizing Rural Low-Income Communities to Improve the Ecological Environment to Prevent Child Obesity. Kansas State University. (USD 655,743 Total Award) Research Grant. 6/2010
Grant/Contract Number: GRT00021123 / S11208
PI: Smathers, C, Co-I: Lobb, J
Explanation of Role: Assistant Professor Smathers served as the Principal Investigator on this project, responsible for managing the data collection and analysis and the project budget, and developing manuscripts and resource materials for publication based on the research findings.
Goal: The long-range goal of this project is to mobilize capacity in communities to create and sustain an environment and culture of healthy eating and physical activity to prevent childhood obesity in low-income young children in rural communities. This includes: 1. Assessing community environments using an ecological model of childhood overweight, 2. Selecting evidence-based or evidence-informed approaches to address individual community needs identified in the assessment, and 3. Testing the effectiveness of a Community Coaching model in improving the ability of communities to address the needs identified in the assessment.
Description: Assistant Professor Smathers hired, supervised and mentored a 50% GRA, served on the seven-state project leadership team, participated in regular leadership calls, webinars, and other project communications, attended annual out-of-state meetings project director meetings, worked cooperatively with project staff in Hardin and Perry counties to ensure fulfillment of the grant requirements (coalition coaching, curricula selection, coalition and community assessments, etc.), approved project expenses, and co-authored manuscripts and training materials based on project findings.

b) Funded Research, including Contracts and Clinical Trials, on Which the Candidate is or has been the Co-Investigator

1. 8/2016 - Present. Ohio Youth Voice: Youth Choice - Advocates for Healthy Living. WalMart Foundation. (USD 15,000 Total Award) Research Contract. 7/2016
PI: Ferrari, T and Smathers, C
Explanation of Role: Coordinate FCS collaboration, coordinate participation in the National Healthy Living Youth Summit and train youth leaders.
2. 8/2015 - 8/2016. Ohio Youth Voice: Youth Choice - Advocates for Healthy Living. WalMart Foundation. (USD 35,000 Total Award) Research Contract. 7/2015
PI: Ferrari, T and Smathers, C
Explanation of Role: Coordinate FCS collaboration, coordinate participation in the National Healthy Living Youth Summit and train youth leaders.
Goal: Project objectives include recruiting and training a diverse group of 50 ambassadors and offer a variety of ambassador-led activities and strategies to increase the nutrition and physical activity knowledge of 2,000 youth in grades 4-12.
Description: Contributed to the development of the project plan, pursued potential partnerships, obtained technical assistance, and edited the project proposal.

c) Proposals for Research Funding that are Pending or were Submitted but not Funded

1. 10/2021. Local Foods in Head Start: More Equitable Food Access for Producers and Young Families. OSU Seed Fund for Racial Justice. (USD 48,777) Research Grant.
PI: Smathers, Carol; Hatsu, Irene

2. 6/2021 National Institutes for Health R01 proposal (USD 3,900,000). Research Grant.
PI: Chang , Mei-Wei
Co-Is - Lin, Chyongchiou; Wegener, Duane; Pek, Jolynn; Lee, Rebecca; Smathers, Carol; Stone, Julie
3. 6/2020. Garden Nutrition throughout the Seasons. United State Department of Agriculture. (USD 199,911 Total Award) Research Grant.
PI: Smathers, Carol, Co-I: McDermott, Timothy
Goal: Increase capacity for food, garden/agriculture, and nutrition education in classrooms and cafeterias by providing experiential food and nutrition education "School-Harvest of the Month" activities that align with, complement, and build on Growing Teachers throughout the Seasons (GTS), a new Farm to School curriculum for k-12 educators; advance nutritional health education of elementary and secondary students by connecting food and nutrition education to foods grown in GTS school gardens and school-based controlled environment agriculture timed for school-year (September-May) growing, by first addressing food safety knowledge and practice barriers; and enhance teachers' capacity to foster students' leadership abilities and technical knowledge to prepare them for agricultural and food-related careers.
Description: Led development of project concept, activities, and evaluation and wrote most of the proposal.
4. 2/2017. The Million Hearts Healthy Lifestyle Program: Promoting Cardiovascular Health by using Adolescents as Agents for Healthy Behavior Change. OSU Office of Outreach and Engagement OSU Connect and Collaborate Grant. (USD 25,000 Total Award) Research Grant.
PI: Melnyk, B
Co-I: , Gawlik, K, Amaya, M, Tan, A, Smathers, C, Ferrari, T, and Brinkman, P.
Goal: Determine and design an efficient distribution system for gaining adolescent Million Hearts participants through 4-H; determine best method of programming through focus groups with adolescents, 4-H educators, 4-H leaders, and OAHP subgroups; develop an effective online Million Hearts Healthy Lifestyle Program; and, develop an in-person Million Hearts educational course for camp counselors of 4-H.
Description: Provided input on the structure of the Ohio 4-H program and the 4-H Healthy Living Advocate program. Suggested recruitment and intervention strategies.
5. 3/2016. Panel Reviewer Honorarium. U.S. Department of Agriculture. (USD 450 Total Award) Unspecified.
PI: Smathers, C
Relationship to Grant: Other significant contributor on
Explanation of Role: Proposal review for the National Institute of Food and Agriculture
6. 2/2016. Assessing Healthy Living In Ohio 4-H. OSU CARES. (USD 17,772 Total Award) Research Grant.
PI: Ferrari, T and Smathers, C
7. 2/2016. Tapping into Water First!: Impact evaluation and best practice guidelines for improving access to drinking water among young children in early care settings. Ohio State University Outreach and Engagement. (USD 34,000 Total Award) Research Grant.
PI: Smathers, C
8. 5/2014. Ohio Nutrition and Obesity Policy Research and Evaluation Network. U.S. Department of Health and Human Services. (USD 1,192,034 Total Award) Research Grant.
PI: Freedman, D
Co-I: (15 others) Smathers, C
Explanation of Role: Assistant Professor Smathers will serve as a member of the researcher-practitioner team focused on reducing obesity trends by addressing health inequities and promoting policy, systems, and environmental changes.
Goal: To reduce obesity trends by addressing health inequities and promoting policy, systems, and environmental changes.

d) Funded Training Grants on Which the Candidate is or has been the Equivalent of the Principal Investigator

1. 3/2017 - Present. 4th H for Health Challenge. Robert Wood Johnson Foundation. (USD 500 Total Award) Training Contract. 2/2017
PI: Smathers, C, Co-I: Ferrari, T
Explanation of Role: Developed action plan in partnership with Healthy Living Advocacy co-director and teen participants.
Goal: At least 10% of 4-H clubs in Ohio will report the implementation of four health-promoting activities (water only, healthy snacks, physical activity, and positive mental health activity) during at least four club meetings.

2. 2/2017 - Present. National Farm to School Network Core Partner. Tides Center. (USD 4,000 Total Award) Training Grant. 1/2017
PI: Smathers, C
3. 1/2017 - Present. Ohio 4-H Healthy Living Advocates Take on the National 4-H Healthy Living Summit!. Ohio 4-H Foundation. (USD 5,000 By Year) Training Grant. 11/2016
PI: Smathers, C and Ferrari, T
4. 6/2014 - Present. Water First for Thirst: Promoting Healthier Beverage Consumption through Youth Advocacy. OSU CARES/OSU Extension. (USD 16,000 Total Award) Training Grant. 2/2014
PI: Smathers, C, Co-I: Ferrari, T, and Pirie, P.
Explanation of Role: Assistant Professor Smathers initiated the idea for this project and gathered support from the College of Public Health, Columbus Public Health (local health department), and a 4-H design team. Together with Dr. Theresa Ferrari, the candidate will co-coordinate the curriculum development efforts of the 4-H Healthy Living Design Team and work closely with College of Public Health and Columbus Public Health toward accomplishing curriculum development and training efforts of this project.
Goal: 1. Develop a research-based curriculum using a youth empowerment approach that addresses sugar-sweetened beverage consumption. 2. Provide training for at least 50 youth and adult leaders to gain knowledge and skills needed to advocate for health beverages in their communities. 3. Develop a tool to assess the extent to which youth adopt an advocacy perspective, recognize their own importance as role models, and put an emphasis on policy change perspectives.
5. 1/2016 - 12/2016. Ohio Youth at the 4-H Healthy Living Summit. Ohio 4-H Foundation Master Endowment. (USD 6,500 Total Award) Training Grant. 11/2015
PI: Smathers, Carol
Explanation of Role: Developed proposal background, project description and goals, budget, and timeline.
6. 1/2015 - 12/2015. Water First for Thirst Teen Leadership Board: Youth Advocacy for Healthy Beverage Consumption. Ohio 4-H Foundation Endowment/Sam Cashman Family 4-H Endowment. (USD 4,890 Total Award) Training Grant. 11/2014
PI: Smathers, C; Co-I: Ferrari, T and Pirie, P
Explanation of Role: Developed parent project and proposal concept, wrote and edited sections of proposal.
Description: Funds will cover travel costs for teen leaders and project faculty and staff to attend curriculum development meetings, trainings, and the National 4-H Healthy Living Youth Summit.
7. 1/2015 - 6/2015. Local Foods Grant Writing Training. U.S. Department of Agriculture. (USD 5,000 Total Award) Training Contract. 11/2014
PI: Smathers, C
Explanation of Role: Principal Investigator and lead trainer for this USDA subcontract through Penn State University.
8. 10/2014 - 6/2015. Farm to School Conference Grant. U.S. Department of Agriculture. (USD 24,992 Total Award) Training Grant. 3/2014
PI: Smathers, C
Goal: The primary goal of the proposed conference is to increase such knowledge and skills participants can use to advance their participation in Farm to School.
Description: Worked with statewide advisors and stakeholders to outline a proposed conference agenda, developed a proposed staffing plan and project budget, assembled and submitted required and optional documents to the funder.

e) Proposals for Training Grants that are Pending or were Submitted but not Funded

1. 4/2021. Farm to School Expansion in Ohio. Ohio Department of Education (subcontract for a USDA-funded Farm to School grant). (USD 30,000 By Year) Training Contract.
PI: Smathers, Carol
Explanation of Role: Lead OSU Extension's part in expanding the state Farm to School network by creating 8 regional networks and disseminating Farm to School newsletters and campaigns. Oversee work of staff and student involvement in this project. Oversee budget and spending.
Goal: Expand Farmto School capacity by working with 8 regional teams, disseminating a newsletter for food service directors, offering Feed our Future materials across the state, and offering an Ohio-specific producer training.
Description: Lead OSU Extension's part in expanding the state Farm to School network by creating 8 regional networks and disseminating Farm to School newsletters and campaigns. Oversee work of staff and student involvement in this project. Oversee budget and spending.

2. 4/2014. Ohio Farm to School Network. U.S. Department of Agriculture. (USD 33,435 Total Award) Training Grant.
Grant/Contract Number: Awaiting review
PI: Solomon, E, Ohio Dept of Education
Co-I: Smathers, C and Davis, A
Relationship to Grant: Collaborator on
Explanation of Role: OSU Extension is a sub-contractor on this grant. Assistant Professor Smathers serves as Director for the Ohio Farm to School Program. As Ohio's state lead for the Ohio Farm to School program, she connects Ohio to the National Farm to School Network and provides leadership for the statewide Advisory Group.
Description: OSU Extension is a sub-contractor on this grant. Assistant Professor Smathers serves as Director for the Ohio Farm to School Program. As Ohio's state lead for the Ohio Farm to School program, she connects Ohio to the National Farm to School Network and provides leadership for the statewide Advisory Group.
3. 4/2013. Ohio Farm to School Network. U.S. Department of Agriculture. (USD 21,700 Total Award) Training Grant.
Grant/Contract Number:
PI: Solomon, E, Ohio Dept of Education
Relationship to Grant: Collaborator
Explanation of Role: OSU Extension is a sub-contractor on this grant. Assistant Professor Smathers serves as Director for the Ohio Farm to School Program. As Ohio's state lead for the Ohio Farm to School program, she connects Ohio to the National Farm to School Network and provides leadership for the statewide Advisory Group.
Description: OSU Extension is a sub-contractor on this grant. Assistant Professor Smathers serves as Director for the Ohio Farm to School Program. As Ohio's state lead for the Ohio Farm to School program, she connects Ohio to the National Farm to School Network and provides leadership for the statewide Advisory Group.

f) Any other Funding Received for the Candidate's Academic work

Funded

1. 10/2014 - Present. Ohio Nutrition and Obesity Policy Research and Evaluation Network. U.S. Department of Agriculture. (USD 2,500 Total Award) Research Contract. 10/2014
PI: Freedman, D, Bebo, P and Davis, A
Co-I: Smathers, C, and Remley, D
Relationship to Grant: Other significant contributor on
Explanation of Role: Data collection and manuscript development. Funded 0.025% of candidate's overall effort.
Goal: To inform the selection of obesity prevention strategies used in SNAP-Ed and Creating Healthy Communities programs.
Description: Assisted with protocol development, data collection, and manuscript development for this research supported through the Supplemental Nutrition Assistance Program (SNAP) Education funds.
2. 9/2013 - Present. 4-H Grilling and Beyond: Cultivating Health Fathers, Kids, and Communities. U.S. Department of Agriculture. (USD 564,012 Total Award) Research Grant. 3/2013
PI: Bates, J
Relationship to Grant: Other significant contributor on
Explanation of Role: Funded 20% of the candidate's overall effort in September-October 2013. Contributed to concept development, proposal and budget development, and evaluation planning, attended required funder training and partner meetings at project sites.
3. 6/2021 - 6/2022. White Paper: Farm to School Spending Flexibility and Sustainable State Position. Ohio State University Office of Outreach and Engagement. (USD 10,000 By Year) OSU Outreach and Engagement. 4/2021
PI: Smathers, Carol
Explanation of Role: Work with two specialists (law and in economics), to gather data and develop a public policy document. I will work to get input and feedback from stakeholders on the legal analysis of how to institute a F2S coordinator and to inform recommendations for potential revisions to school food purchasing guidelines that would increase spending flexibility.
Goal: Develop a White Paper on the potential implementation and impact of greater spending flexibility using school meal funding and of instituting a fulltime Farm to School support position in a state agency in Ohio. An action team recently formed to identify recommendations for creating more financial flexibility for Ohio schools to purchase locally. Participants include representatives of a food policy council, food hub, public health department, school food service, and OSU Extension. This team needs concrete economic and policy analyses of how Ohio's programs operate and of relevant state and federal policies.
Description: Coordinate development of drafts, revisions, and final White Paper.

4. 6/2021 - 5/2022. System Change in Early Care and Education: Improving Dietary Consumption through Food Education and Access to Local Foods. Working title= Technical Assistance and Gardening "TAG". Initiative for Food and Agricultural Transformation (InFACT). (USD 34,998 By Year) InFACT Linkages and Leverage Grant. 4/2021
PI: Smathers, Carol
Co-I: Chang, Mei; Lin, Chyongchiou; Wegener, Duane; Hatsu, Irene
Goal: This research collaboration (Extension, Nursing, Psychology, Nutrition) assesses potential effects of a food education and access intervention combined with local food procurement in early care and education programs. Results will inform an NIH proposal and advance system change in Ohio.
Description: Direct overall activities and staff, engage ECE and food system partners, oversee budget and reporting, participate in manuscript preparation, and work with Dr. Chang (PI for the NIH R01) to build our research team's capacity and develop and resubmit a successful R01 proposal.
5. 1/2016 - 4/2016. Public Issues Leadership Development Conference Scholarship. Epsilon Sigma Pi. (USD 600 Total Award) Professional Development. 11/2015
PI: Smathers, C
Relationship to Grant: Other significant contributor on
Explanation of Role: Completed professional development qualification statements and goals for conference attendance.
6. 1/2016 - 4/2016. Public Issues Leadership Development Conference Scholarship. Epsilon Sigma Pi. (USD 600 Total Award) Professional Development. 11/2015
PI: Smathers, C
Explanation of Role: Completed professional development qualification statements and goals for conference attendance.
7. 5/2015 - 10/2015. Office of Outreach and Engagement Travel Support. OSU Office of Outreach and Engagement. (USD 1,000 Total Award) Professional Development. 4/2015
PI: Smathers, C
Relationship to Grant: Researcher on
Explanation of Role: Awarded travel support to present two posters with results from community-based research projects.
8. 6/2015 - 6/2015. Local Foods Promotion Program Grant Program Reviewer. U.S. Department of Agriculture. (USD 400 Total Award) Subcontract. 5/2015
PI: Smathers, C
Relationship to Grant: Other significant contributor on
Explanation of Role: Reviewed grant applications and worked with cross-state team to determine proposal scores.
9. 9/2013 - 9/2014. Prevention Research Center: Foundations for Healthy Living - Pilot project, Year 5. U.S. Department of Health and Human Services. (USD 167,570 By Year) Research Grant. 5/2013
Grant/Contract Number: GRT00022031
PI: Pirie, PL
Co-I: Anderson, SE, Kaye, GL, Klein, EG, and Wewers, ME
Relationship to Grant: Researcher on
Explanation of Role: Funded 25% of the candidate's overall effort in October 2013-September 2014. As Project Manager, Assistant Professor Smathers coordinated data dissemination activities related to the Prevention Research Center's (PRC) Parent Survey in the south side of Columbus. She was involved in analysis, publication, and dissemination of the PRC Parent Survey data, and played a key role in facilitating the center's community partnership advisory committee, represented the center in community health coalitions, and developed reports and trainings related to the center's research.
Goal: To better understand patterns of parental behaviors which influence weight gain in preschool-age children and disseminate findings related to supporting parents to create healthier habits among their children.
Description: Coordinate community-based research activities including data collection and dissemination.
10. 9/2012 - 9/2013. Foundations for Healthy Living - Prevention Research Center pilot project, Year 4. U.S. Department of Health and Human Services. (USD 188,283 By Year) Research Grant. 5/2012
Grant/Contract Number: GRT00022031 / U48DP001912
PI: Pirie, PL
Co-I: Anderson, SE, Kaye, GL, Klein, EG, and Wewers, ME
Relationship to Grant: Researcher on
Explanation of Role: Funded 25% of the candidate's overall effort in October 2013-September 2014. Between May

2012-May 2013, Assistant Professor Smathers managed data collection for the Prevention Research Center's (PRC) Parent Survey, a community-based participatory research project. She was involved in analysis, publication, and dissemination of the PRC Parent Survey data. She played a key role in facilitating the center's community partnership advisory committee, represented the center in community health coalitions, and developed reports and trainings related to the center's research.

Goal: To better understand patterns of parental behaviors which influence weight gain in preschool-age children and to determine the best ways to encourage parents to create healthier habits for their children.

Description: Between May 2012-May 2013, Assistant Professor Smathers managed data collection for the Prevention Research Center's (PRC) Parent Survey in the south side of Columbus. She is involved in analysis, publication, and dissemination of the PRC Parent Survey data. As the PRC conducts community-based participatory research, she also plays a key role in facilitating the center's community partnership advisory committee, representing the center in community health coalitions, and developing reports and trainings related to the center's research.
