Improvements Coming to Zoom on July 18

The Office of Distance Education and eLearning (ODEE) has secured an enterprise-wide contract with Zoom, and we are excited to offer this tool across the university under the branded name "CarmenZoom." CarmenZoom will be

available to all faculty, staff and students, making it easier to stay connected with your colleagues across the university and the state of Ohio.

What does this mean for CFAES?

On July 18, ODEE will be migrating all CFAES Zoom accounts to the enterprise version. This will happen behind the scenes, and you should not experience any disruption in service. Future meetings will be maintained and existing links to meetings will redirect appropriately.

Once migrated, you will notice the following benefits:

- All users will have Pro accounts
- The meeting participant limit will increase to 300 (from 100)
- Automatic closed captioning will be available for recordings saved in the cloud

It is important to note that recordings can still be stored in the cloud, but they will be automatically deleted 120 days after the date of recording. CFAES IT staff have uploaded all existing recordings to BuckeyeBox, so you can easily retrieve any old recordings you'd like to keep. If you have existing recordings, CFAES IT will reach out to you directly with more instructions on how to access your recordings in Box.

Support for Zoom will remain the same—you should continue to contact the [IT Service Desk](#) for any issues or requests.
