Back 2 School Bash: Call for Volunteers

Faculty and Staff are invited to volunteer at the 9th Annual Back 2 School Bash on **Thursday, August 29 at the Fred Beekman Park**, across from Waterman Farm. This annual event is a lot of fun, but also starts the community building process for the upcoming year. This year's theme is World's Fair, which will include performances by OSU international student organizations, exotic animals from the Columbus Zoo and Aquarium and a photo booth with backdrop options from around the world.

[Register here](#) to be part of the fun by volunteering for shifts as short as 1 hour. T-shirts and free food will be provided!

For more information contact Mariette Benage (Benage.1@osu.edu) or Kelly Newlon (Newlon.7@osu.edu).

Have a Food Safe Summer!

The warmer weather conditions may be ideal for outdoor grilling and picnics, but make sure you are food safe during the hot summer months so your fun in the sun does not get cut short!

- When grilling, do not use the same plate for the raw meat and cooked meat...use separate plates to keep from cross contaminating foods.
- Wash all produce under running water before eating, cutting or cooking... even if you plan to peel them!
- Be mindful about food temperatures (Keep COLD foods COLD and HOT foods HOT!). For example, potato salad should be kept cold...so put those picnic perishable foods in an insulated cooler packed with ice. And never leave food out for longer than two hours (1 hour if 90 degrees or above).

What is the Enterprise Project?

The [Enterprise Project](#) - is a business transformation that will improve the Ohio State experience and advance operational excellence through Workday and other modern, effective services and technology.

At its core, the Enterprise Project will change the way everyone in the university does business. By leveraging modern systems and more efficient processes, Ohio State faculty, physicians, staff and students can spend more time on mission-driven work, and less on administrative tasks. Our current administrative systems are outdated and inefficient. They cause inflexibility in business processes, and business and technical risk due to their age and customization. Updating these systems and the processes together provides tremendous opportunity to move Ohio State forward.

It includes optimizing finance, HR, payroll, student services and IT business processes; replacing core administrative systems (currently PeopleSoft) with Workday; and improving decision-making through a single source of trusted administrative data. More information about this project can be found here [Enterprise Project](#).

Watch for future articles in CFAES News with details on each initiative included in this project and how it will affect faculty, staff and students in CFAES

Improving Milk Hygiene in Resource-Limited Settings: the Continuum of Technical and socio-cultural challenges

Dr. Kebede Amenu Ejeta, DVM, MSc, PhD

Dr. Kebede Amenu Ejeta is a faculty member of the College of Veterinary Medicine of Addis Ababa University and collaborator on TARTARE. His current areas of research include epidemiology of foodborne diseases and interventions aimed at improving the safety of food and, in particular, dairy products. In TARTARE, he is involved in designing and assessing the milk hygiene improvement interventions. Dr. Kebede also teaches courses such as Veterinary Public Health, Research Ethics, One Health and Food Safety both at undergraduate and graduate levels.

Friday, July 26, 2:00 P.M.

Location: Parker 118

CFAES Professional Development Summer Series 2019

This summer, bring your lunch and join the CFAES Staff Advisory Council (SAC) for our Summer Professional Development series. Each event is **free**

and open to all CFAES employees. The events will be broadcast via Zoom and also recorded. Please register below if you plan to attend. The 2019 series focuses on CliftonStrengths®, and each session can stand-alone, so you are able to choose sessions that fit your schedule. If you've attended a session before, you will discover content different from the original workshop. [Learn more.](#)

2: SUCCESSFULLY USING YOUR STRENGTHS AT WORK

Friday, August 2, 12:00-1:00pm

Where: 211 Agricultural Administration (Columbus), 126 Research Services (Wooster), 160 Endedavor Center, (Piketon), and Zoom

Register: go.osu.edu/SAC_CliftonStrengths

Your Strengths are an important part of what contributions you bring to your job. This session will help you discover how your Strengths influence your job performance and will provide you with tips to more effectively utilize your Strengths and avoid blind spots. Outcomes for this session are:

- Identify the Strengths you use to perform your job duties
- Discover blind spots to your performance
- Determine how to use your Strengths to enhance your performance

Tree Talk: Ticks and Tick-borne Diseases.

Check out these videos and other resources to learn how you can protect your family, pets and livestock from the increasing threat of ticks and the diseases that they carry: <http://go.osu.edu/tickvideos>

Tree Talk is produced by the OSU South Centers YouTube Channel in cooperation with Dave Apsley (OSU Extension) and Jamie Dahl (Central State University Extension). For a playlist of previous episodes of **Tree Talk** visit: <https://go.osu.edu/treetalk>

Save the Date: CHAIRE Presents Animals in Our Lives Featuring Dr. Temple Grandin

Monday, September 30, 5:00-8:00pm

Where: Dave Thomas Conference Center
1 Dave Thomas Blvd., Dublin, OH 43017

Register: chaire.osu.edu

The evening will include a short introduction to CHAIRE, a plated dinner, silent auction, animals from the Columbus Zoo and Aquarium, a presentation by Dr., Peter Neville, and a presentation by Dr. Temple Grandin.
